### DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

#### ***Specification***

2. The most recent amendment to the Specification is objected to because of the following reasons:

- In paragraph [0064] (line 5), before "1304", insert – **of the race** – to maintain consistency with other occurrences of reference numeral 1304. It is noted that the reference numeral 1304 has been identified in the specification as a race, and not as a depression.

Appropriate correction is required.

#### ***Drawings***

3. The recently submitted fig. 10a is objected to because of the following reasons.
  - The fin mounting fastener should be clearly shown, which is currently not identifiable in the amended drawings. Applicant may note that the reference numeral 1010 is not distinguishable from the channel 1008.
  - The reference numeral 1002 should properly point at the outer wall of the housing or at the middle portion of its wall. Numeral 1002 improperly points at the race -- also identified by numeral 1304.
  - It is recommended that the outlines of the board be shown in fig. 10a (optional).

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement

Art Unit: 3617

drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Allowable Subject Matter***

4. Claim 30-35 and 37-41 are allowed.

### ***Conclusion***

5. The examiner made attempt to contact the applicant to resolve the above issue(s), but was without success. This Office action is being issued because an Examiner's Amendment to the drawing would not be possible without applicant's input.

Applicant representative is invited to optionally contact the examiner to discuss the recommended drawing changes. The option of an Examiner's Amendment to expedite prosecution is available to the applicant, if so preferred, after any proposed drawing changes have been approved by the examiner.

6. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
